

# 102 Series Cart

The Blodgett transport cart is a practical way to improve the work flow in your kitchen. Transport carts make it easy to move loaded cassette racks or plate racks into and out of the combi, to cold storage or to the serving area. Transport carts also ensure ergonomically correct loading and unloading of the oven.

The transport cart stays outside the oven during the cooking process so it can be used for more than one oven increasing productivity. Transport carts can be nested together to take up less storage space and or can slide under the side of the oven(s) out of the way of general kitchen traffic.

The transport cart works with either the optional cassette rack to hold pans or the optional plate rack for plated meals. Choose from either 2.56" (65 mm) spacing or 3.35" (85 mm) spacing. The use of either a cassette or plate rack also requires the use of the optional rack support platform to ensure correct rack placement in the oven.

Shown with cassette rack

## CAPACITY

- ❑ Standard pan cassette with 3.35" (85mm) spacing holds eight full size sheet pans or sixteen 12" x 20" x 2-1/2" deep North American hotel pans
- ❑ Optional pan cassette with 2.56" (65mm) spacing holds ten full size sheet pans or twenty 12" x 20" x 2" deep Gastronorm pans

- ❑ Optional plate rack with 2.56" (65mm) spacing holds sixty-three 10" diameter plates
- ❑ Optional plate rack with 3.35" (85mm) spacing holds fifty-one 10" diameter plates

*102 series ovens include one standard cassette rack. The transport cart is available as an option.*

## STANDARD FEATURES
